GTECH
G2BINGO
We Speak Bingo

GTECH G2 Bingo is designed with bingo players in mind, offering an incredible selection of bingo variants it's certainly 'top of the shop'.

With a user friendly interface allowing players to easily register and navigate their way around the online bingo room, features such as prebuy and autobuy, the ability to customize the site to their own specification with a resizable mini games screen, and exciting promotions that will delight all your bingo buffs – legs 11!

Barely a day goes by without reference to social media and social networking and with live presenters and our innovative chat management tool players feel part of one of the world's largest and oldest social networks by creating their own online bingo community.

At GTECH G2 we understand the importance of mini and side games in driving revenue and as such have the largest selection in the industry. Our games have been designed to fully complement the Bingo product, keeping players playing, for longer.

Bingo is one of the fastest growing sectors in iGaming and as the market grows so does the number of operators. Being part of a bingo network gives you access to increased liquidity, bigger jackpots and games that will excite and delight your players. GTECH G2 runs the International Bingo Network (IBN), the largest bingo network in Europe. IBN membership is flexible and it can serve as an ideal launch if clients aspire to run a standalone network. With payouts of over a million pounds every day and 500 jackpots paid out every month creating enough excitement for even the biggest bingo thrill seeker.

At GTECH G2 – We Speak Bingo

Key Product Facts

Instant Bingo

Bingo Games

The following multiplayer games are available for the instant-play bingo client:

- 75-Ball Bingo (Classic, Variant and Pattern)
- 80-Ball Speed Bingo
- 90-Ball Bingo

Bingo Management

Games can be configured by specifying the following settings using the Bingo Manager tool:

- Ticket price (for all supported currencies)
- Percentage of the ticket price that feeds the pot
- Buy x, receive y tickets promotions
- Free squares
- Winning patterns
- Prize structure with prizes based on fixed and/or pot-based amounts, including guaranteed prizes, consolation prizes and other special prizes
- Jackpots
- Counting jackpots
- Drawing speed

Special Features

The bingo solution provides a number of special features and services, including the following:

- Bingo network support
- Wide selection of graphical templates and skins
- Multiple languages and currencies
- Linked rooms and pooled liquidity

- Customisable ticker for promotions
- Promotional banner (displayed between rounds)
- Ticket purchase through auto-buy and pre-buy
- Live video streaming

Chat

The modern Chat Administration Tool (CAT) supports these useful features and more.

- A dynamic number of chat rooms can be created within a single bingo stream. Chat rooms can be dedicated to specific languages and/or themes.
- A language-specific foul word filter helps to ensure a pleasant chat room atmosphere.
- Each player can create a unique public profile with an avatar and interesting details about themselves.
- From the list of chat room users, players can create individual buddy lists, allowing them to see when friends are online and enjoy private chat sessions.
- Chatters can make use of colourful emoticons and animated chat acronymns.
- Chat managers can capably manage multiple chat rooms through a single user interface. Managers can host chat games, send private messages to players and use handy pre-defined messages, reward loyalty points to specific players, view information about the current drawing, retrieve the history of any past game round, and ban any abusive player from chatting temporarily or permanently.
