GTECH
G2POKER
We Speak Poker

GTECH G2 Poker is the ultimate poker solution. Having spent seven years studying player behaviour and developing industry leading player segmentation tools, this knowledge has driven our game development. We have every table and every hand covered, enabling you to offer your players a poker experience that is head and shoulders above the competition.

The GTECH G2 Poker product offers the most authentic player experience with exceptional graphics and multi table tournaments that recreate the excitement and strategic battles of a real life poker room.

Our poker product is fully customizable allowing you to tailor everything from your lobby background and game tabletops to your card backs. With industry leading customer support via live chat and the ability to offer a complete hand history with GTECH G2 you can be sure that you are offering your players the very best in online poker.

At GTECH G2 we understand the importance of liquidity to the success of an online poker room and run six of the world's most successful poker networks, giving you access to the widest range of tournaments and world record breaking jackpots. Our six networks, include the first and only legal network in North America, at GTECH G2 you can be sure that our poker products meet all local legal requirements and regulations.
